<b>LEAD (Pb)</b>	Maximum mg/kg <b>17.4</b>
<b>Biuret</b>	g/Kg of N <b>18.1</b>

#### Important Information

- \* Always water fertiliser in well, immediately after application. Watering should involve a thorough saturation of the area.
- \* Avoid direct contact with plant roots, seeds etc
- \* Even, light and regular applications of a quality product will achieve best results.
- \* Always reseal bags after use and dispose of empty bags properly.
- \* Sandy soils will require lower rates of fertiliser but more frequent applications
- \* Apply sparingly on potted plants as excessive fertiliser can cause burning relatively easily.
- \* It is much safer to apply small amounts on a regular basis,
- \* Do not exceed recommended application rates as this can be harmful to plants.

■ ■ cause damage to citrus.
