

Black Gypsum DGTM

Reduces Water Usage, Soil Salinity and Bicarbonates to Improve Your Turf

Gypsum + Humate

Black Gypsum DG is a unique bio-amendment that combines natural dihydrate gypsum and humate in a homogeneous Dispersing Granule.

Black Gypsum DG delivers Calcium, Sulfur and Humate (a rich source of Carbon) directly to the soil utilizing The Andersons Dispersing Granule (DG) Technology.

- Humic substances enhance the plant's ability to take in essential nutrients and improve soil structure
- Gypsum acts as a soil conditioner, loosening hard packed soils and enhancing the flushing of harmful salts and excess sodium

APPLICATION RATES

Product	SGN	Bag Size	Black Gypsum DG Application Rates - Refer to label for complete use instructions
Black Gypsum DG Greens	75	20 kg	ESTABLISHED TURF: 150-600 kg/ha NEWLY SEEDED TURF: 300-600 kg/ha HYDROSEEDING: 300-600 kg/ha DAMAGED SALT AREAS: 600-1000 kg/ha GARDENS AND CROPS: 225-600 kg/ha
Black Gypsum DG	240	20 kg
