

INNOVATIVE and AUSTRALIAN

BARMAC HERBICIDE RANGE

Barmac Industries Pty Ltd is a leading company in the development of pesticides specifically for Turf, Landscaping and Home Garden markets. Barmac has had more than fifty years experience in this market sector making us one of the most knowledgeable companies. Our range of turf herbicides are specifically designed around multiple active constituents that result in synergies that help target difficult to kill weeds.

BROADLEAF WEEDER

BROADLEAF WEEDER is an effective wide spectrum broadleaf herbicide. It is safe on all grass varieties except Buffalo.

BINDII KILLER

BINDII KILLER is fast acting, safe on all grass types. It provides quick knockdown and is effective against a wide spectrum of perennial weeds.

PASPALUM AND CLOVER KILLER

PASPALUM AND CLOVER KILLER provides selective grass control of a number of difficult to control grass species as well as control of a range of broadleaf weed species. It is safe to use on Couch, Bent and Fescue lawns

LAWNWEEDER PLUS

LAWNWEEDER PLUS is a versatile herbicide which provides particularly good activity on Mullumbimby Couch. This herbicide is safe on all varieties except Buffalo.
