fertech

Calculus^{15% Ca}

Liquid nutritional supplement

- Contains Brandt Manni-Plex® Technology to rapidly overcome calcium deficiencies within the plant
- Natural humectant coats leaves to prolong nutrient time in solution
- Manni-Plex® complex greatly enhances nutrient adsorption and translocation
- Ideal for use in situations of low plant available calcium such as poor quality irrigation water

Guaranteed Minimum Analysis (W/V)

15% Calcium as Manni-Plex® Sugar Alcohol Complex

pH: 8.5 S.G: 1.2

GROWING SOLUTIONS

Direction for Use:

Apply as a spray to actively growing turf and ornamental plants where immediate uptake of calcium is required. Dilute with water, using the application rate that delivers the desired level of calcium. When calcium demands are high, use of the rate at the upper end of the Application Rate Table are recommended. Apply in sufficient water to achieve adequate plant coverage. Avoid mowing within 24 hours after application.

Application Details:

Situation	Rate/100m ²	Rate/Ha	Water Volume	Comments
Turf	50mL–150mL	5L–15L	Minimum of 5L/100m ² (500L/Ha)	Use the high rate when calcium deficiencies have been identified or when poor irrigation water is impacting on calcium availability.
Bowling greens	0.8-2.4L / Standard green in a minimum of 150L of water		Minimum of 150L	Repeat applications at 4 – 6 week intervals.
Landscape and Ornamental Plants	15-40mL		10L of water	Apply as a foliar spray just prior to the point of runoff. Continue until deficiency has been addressed. Apply at 4-6 week intervals.

Mixing:

Fill spray vessel with half the required volume of water. Add required amount of Fertechn Calculus to the spray tank while agitating. Add remaining water to the spray tank. Continue agitating during application. Wash out spray tank, including nozzles, immediately after use.

Storage, handling & disposal:

Do not store below -5°C, as crystallisation may occur. Do not contaminate lakes, streams, dams or ponds by cleaning equipment or disposal of waste. Avoid contact with eyes and skin by wearing appropriate protective equipment, such as gloves, boots and safety goggles.

First aid:

In case of contact with eyes or skin, flush at once with large amounts of water. If irritation persists, seek medical attention. If swallowed, drink large amounts of water and induce vomiting. Seek medical attention.

Conditions of sale:
