fertech Super Iron

Liquid nutritional supplement

- Liquid fertiliser solution containing 6% iron
- The delivery system harnesses plant carbohydrates within the solution as a catalyst to optimise nutrient uptake through the foliage, maximising application efficiency
- For the correction and prevention of iron deficiencies in turf and landscape plants

CONTENTS

- 20L 200L 1000L

Guaranteed Minimum Analysis (W/V)

6% Iron (Fe) as Manni-Plex® Sugar Alcohol Complex

pH: 2.5

Directions for Use:

Fertech Super Iron can be used as a foliar and/or soil drench in a complete and balanced nutrition program as an iron source. Apply as a spray application on all turf grasses and landscape plants that require iron. Dilute with water, using the lower rate for more frequent application and the higher rate where immediate turf growth and colour response is desired. Apply in sufficient water to achieve adequate plant coverage. Use a water volume of 5-15L per 100m² (500-1500L/Ha), depending on the application rate. Avoid mowing for 24 hours following an application.

Application Details

Situation	Rate/100m ²	Rate/Ha	Water Volume	Comments
Foliar	200-400mL	20-40L	Minimum 5L/100m ² (500L/Ha)	Repeat every 14-30 days during the active growing season.
Turf enhancer	400-500mL	40-50L	Minimum 5L/100m ² (500L/Ha)	Apply prior to tournaments and events to enhance turf colour.
Soil application	200-400mL	20-40L/Ha	Minimum 5L/100m ² (500L/Ha)	Irrigate following application with 3-6mm of irrigation. Repeat every 14-30 days during the active growing season.
Landscape plants and ornamentals	40mL		40mL / 10 litres	Repeat the application every 30 days or as required.

Mixing:

Fill spray vessel with half the required volume of water. Shake container of Fertech Super Iron and add required amount to spray tank while agitating. Add remaining water to the spray tank. Continue agitating during application. Wash out spray tank, including nozzles, immediately after use.

Storage, handling & disposal:

Do not store below 0°C, as crystallisation may occur. Do not contaminate lakes, streams, dams or ponds by cleaning equipment or disposal of waste. Avoid contact with eyes and skin by wearing appropriate protective equipment, such as gloves, boots and safety goggles.

First aid:

In case of contact with eyes or skin, flush at once with large amounts of water. If irritation persists, seek medical attention. If swallowed, drink large amounts of water and induce vomiting. Seek medical attention.

Conditions of sale:
