

KikStart Fertiliser

Unique fertiliser, manufactured from enriched composted manure. Provides essential nutrients for plant growth in a natural form.

KikStart Fertiliser

- Provides essential nutrients for plant growth in natural form to encourage healthy active growth
- The granular form breaks down slowly, releasing the nutrients to provide sustained growth for up to 3 months
- Organically enriches and improves the health of soil.
- Ensures good quality flowers and fruit and promotes deep flower colour & healthy foliage
- Easy to spread on gardens and lawns and because of its gentle organic base formulation will not burn. Therefore there is no need to water it in immediately.
- Low odour

Pack Size: 12Kg, 20Kg
