GROWING SOLUTIONS

NutraFeed 20 is a soluble crystalline blend formulated for foliar application. Foliar fertilisation is not a substitute for soil fertilisation, but a supplement to it.

NutraFeed 20 is a completely soluble and chloride free formulation, providing a range of nutrients necessary for optimal turf growth.

NutraFeed 20 is an evenly balanced NK dominant soluble fertiliser blend with good levels of nitrogen, potassium, magnesium and trace elements for general growth.

## Features

- Effectively provides a one shot multi nutrient boost to promote balanced growth
- Can be used at any stage due to its unique and balanced NK ratio
- Contains no phosphate, ideal for high P soils
- Contains Lo Biuret Urea, which is safer on turf than standard urea
- Contains trace elements in chelated form maximising plant uptake

Pack size 25kg
