

All Seasons White Oil

Oil based insecticide for ornamentals

globe
GROWING SOLUTIONS

Active ingredients 825g/L petroleum oil

Pack size 5L

General information

An oil based insecticide containing 825g/L of petroleum oil. For the control of various scales, mites, mealy bugs, leafminers, whiteflies, and aphids in a range of plants. White oil as a horticultural oil is used for controlling sucking and chewing insects, aphids, scale, mealy bug and citrus leaf miner.

Mode of Action

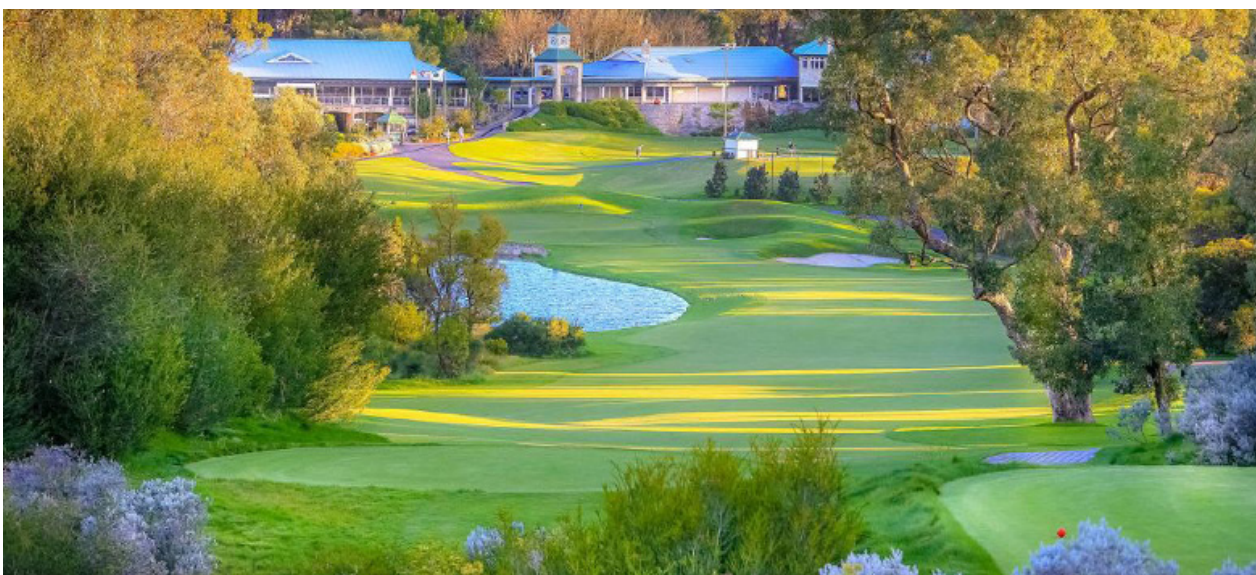

It's mode of action is that it smothers and suffocates pests. This mode of action means insects will not develop a resistance.

Usage

For best results spray leaves and stems on both sides thoroughly. Shake well before use.

Caution

Do not apply when temperatures are over 30 degrees celsius to avoid causing leaf burn to plant foliage.
